Suhas Kashyap

kashyapsuhas07@gmail.com ❖ (+91) 8123589488 ❖ Bengaluru, India

PROFILE

- Full-stack web developer with ~5 years of experience in the JavaScript/TypeScript world, specializing in Front-end development.
- Skilled in developing web applications from scratch, and migrating projects to modern tech stacks.
- Expertise in ensuring web accessibility with consistent appearance and functionality across various browsers.
- Strong interpersonal skills, with experience collaborating with teams spread across geographies.

WORK EXPERIENCE

ProjectPro   **Nov. 2021 – Apr. 2023**
Senior Software Engineer   *Remote*
- Led the comprehensive overhaul of projectpro.io, modernizing the tech stack and improving the performance and developer experience.
- Set up a type-safe stack spanning DB access to UI – MySQL, Prisma ORM, NodeJS, Jest, GraphQL, gql-codegen, Apollo, ReactJS - NextJS (ISR), Jotai, TailwindCSS.
- Worked with the designer to set up the Design System + component library - maintained through Storybooks.
- As the senior-most developer at the pre-seed startup, I set up processes to establish good engineering practices and a documenting culture.
    o Helped cross-functional teams with their technical queries/creation of dashboards.
    o Mentored juniors and helped them get up to speed with React, Node, and TypeScript.

Quotient Technology   **Jan. 2018 – Oct. 2021**
Software Engineer 2, 1, and Intern   *Bengaluru, India*
- Extensive work on improving accessibility across projects; Was the go-to person for a11y in a team of 20.
- Added many web-performant features to the B2B2C e-Commerce product which had major US Retailers as partners and was being used by millions of users. Refactored several parts of the 8-year-old code base.
- Worked on developing a WYSIWYG CMS app, QEM, for retailer marketing campaigns.
- Shipped several mobile-only multi-page projects on the React (SSR) O2 monorepo stack.

Goalwise   **May 2017 – July 2017**
Web Development Intern   *Bengaluru, India*
- Built a Flask web-app to extract info from eCAS pdf files through RegEx, and generate portfolios with APIs.
    o Helped automate several days worth of manual work.

EDUCATION

PES University   **June, 2018**
B.Tech (Computer Science and Engineering)   *Bengaluru, India*
